Modern amenities, increased efficiencies and accommodates future expansion

The One International Gateway project is more than just a new terminal and we won't have to wait long to start experiencing the benefits of this development. Within the next several years, we will have a new rental car facility, new hotel and increased airport parking, key elements that will greatly improve the traveler experience. Our future-focused, phased approach ensures we strategically and responsibly stay in step with our city's growth while pioneering the next chapter of our region's future.
