

New nonstop routes open the door to more destinations

Meet us in the city of Brotherly Love! Frontier Airlines **announced in early February** that they'll begin nonstop service from CMH to Philadelphia on May 22. This will be the second airline to offer service to PHL, alongside American Airlines, giving you even more options to jet-set to the East Coast.

Even more destinations to explore! This spring, Frontier adds nonstop service to New Orleans, followed by Delta to Salt Lake City and Southwest to Kansas City and San Diego in June. These exciting additions bring our total nonstop destinations to a record-breaking 53!
